

CoVantage
CREDIT UNION

CONSTRUCTION FINANCING GUIDE

SECTION 1: How a CoVantage Credit Union Construction Loan Works

This program is designed for remodel and new construction projects. This is a two-step process. Construction loan with end loan financing.

Program Details

- Interest only for 18 months with a balloon payment due at the end of the term.
- Must have a licensed General Contractor oversee the project from start to finish.
- Funds used for construction/remodel will be disbursed by the title company. Work must be completed before payment will be approved.
- Draw requests are to be submitted to the title company and can take up to 7 days to process.
- If an item exceeds the amount that was allotted, title company cannot disburse any more than was on the original cost breakdown.
- Appraisal is done “subject to completion” of construction/remodel and after project is complete, appraiser will go back out to property recertifying value.
- After construction is completed member will apply for an end loan. Eligibility for the type of end loan project will be determined once construction is complete.
- It may take a year or more before your property tax bill is at full assessment. Therefore, an estimated calculation to determine annual property taxes will be generated from an online source. The estimated amount will be used for loan qualification and escrow of property taxes.

Borrower Requirements

- 10% reserves for cost overruns, the amount is based on the construction costs or rehab amount.
- Borrower to approve all invoices to be paid and submit draw request to the title company.
- Borrower to cover cost overruns over the original cost breakdown.
- Borrower to obtain builder’s risk insurance policy and provide an annual paid receipt prior to closing.
- Change orders must be in writing and submitted to the title company for approval before change is granted.
- Borrower’s required funds for construction project will be deposited into a savings account at CoVantage Credit Union prior to the start of project. These funds will be used prior to disbursement of loan funds.

SECTION 2: Terminology

Allowance – An available amount of money set aside for specific use of items not yet selected. For example, an electrical allowance sets aside funds to be spent on electrical fixtures.

Bid/Estimate - The approximate cost of labor, materials, and other costs that a contractor anticipates for a project as summarized in the contractor’s proposal.

Blueprint/Floor Plan – A drawing used to show the measurements of the outside structure and interior rooms.

Builder's Risk Insurance – Insurance purchased by the owner for protection coverage during the construction project. Policy will convert over to a standard policy once construction is complete.

Certificate of Occupancy – Certificate issued by the local municipality after all inspections have been completed that will allow owners to occupy the home.

Change Order Request – A document that is used when the homeowner has made a change to the original signed contract. This document needs to be approved by the Lender before the contractor makes the change; or it will need to be billed separately, increasing the cost to build the home.

Conditions, Covenants and Restrictions – Standards that determine how a property can be used and protections put in place by the developer for the benefit of all owners in a subdivision.

Construction Contract – A legal document between parties that outlines the scope of work to be completed along with the costs associated with the construction.

Contractor – A person or company that is licensed to perform construction duties.

General Contractor – A licensed person that oversees the project from start to finish.

Sub-Contractor – a specialty contractor who works under the General Contractor

Draw Request – The advancement of funds for work that has been completed by the contractor.

Escrow Account – An account where funds are held for the completion of the project.

Survey – A document showing the boundaries and measurements of a specific parcel of land.

Zoning – Governmental limits on the usage of a property. Example: Residential, Commercial, Agricultural

SECTION 3: Advantages of Having a Construction Loan with CoVantage

- Local servicing – you can talk to our Mortgage Servicing staff or Mortgage Loan Originators at any time.
- Free pre-approvals.
- Payments are credited the same day they are received.
- No pre-payment penalties.
- Electronic payment options – Automatic transfer from savings or checking using MyCoVantage Digital and Mobile Banking.
- Loan interest rebate – A percentage of interest paid on your in-house mortgage is returned to you at the end of the year. Although not guaranteed, a loan interest rebate has been paid since 1982.
- Credit of \$1000 at end of construction loan financing if construction end loan is funded prior to 18-month term.
